**Certificates presented at the AGM**

**From Your Committee**

Dear Members,

It seems like no time at all since I last sat down to write the preface to the schedules. It has been another busy gardening year with many failures but also successes. All the fruit trees have been unbelievably productive, even the chestnut trees in the woods have been laden with the bounty of autumn. Other crops have been badly hit by the drought. Some you win, some you lose!

Firstly, I'd like to draw your attention to our new 'Information and Advice for Exhibitors' page in this 2026 schedule. The new page features useful guidance from the RHS about how to display your horticultural exhibits, and home produce. The RHS sets the criteria for all judges whether you enter classes in Beckley, Northiam or any other horticultural group's show. I have tried to give you some brief helpful tips because the more entries we have for each class the more fabulous the show. It's a shame when we see beautiful produce marked down because they are not displayed correctly and we don't want people discouraged from entering because they are unsure of what to put in, or how to display it. Hopefully you will all find this useful. Please let me know.

Secondly I'd like to take this opportunity to show my appreciation for our committee. They all work very hard for Beckley Horticultural Society and are committed to its success.

The amount of effort it takes to put on our shows is quite incredible. We arrange all the tables the night before, laying out all the dividers and class labels etc, then arrive at the hall early on the morning of the show to accept all the exhibits. Once the judges have gone all the certificates are written out, recorded and counted for the prize giving. This can take quite a while especially if we have lots of classes. After the prize giving and raffle, it's then a massive clear up to leave the hall totally clean. No wonder we all go home exhausted after show days!! Committee members are also asked to provide cakes, canapés, plants and raffle prizes for shows and events like the AGM. And they do that generously and repeatedly. And for all this, as Chair, I want to publicly express my thanks to them all.

As always I hope 2026 is a good year for you all.

Angie Lewis

## Information and Advice for Exhibitors

### Horticulture

- Beet, carrots, parsnips and turnips should have the leaves removed, leaving not more than 3"/8cm of leaf stalk.
- Leeks should be shown with untrimmed roots and with about 3"/8cm of green foliage.
- Rhubarb is shown as a vegetable, not a fruit. Forced and unforced, show with not more than 3"/8cm of leaf.
- Other fruits should be shown on the stalk including Tomatoes.
- All fruit and vegetables should be shown in perfect natural condition with the bloom left on. Do not polish your apples, pears etc.
- Leave fruit strigs (bunches of berries) and stalks intact e.g., raspberries, strawberries, tomatoes. Currants should be shown in strigs.
- Avoid over skinning your onions and choose those of a uniform size. Tie or whip tops neatly and trim back roots, small onions can be presented on a plate of sand.
- Only exhibit the amount/number stated in the schedule, don't put in extra as this will not be judged.
- Make sure flowers and foliage are in tiptop condition and fill any vases with water.
- You must use a Bikini vase where \* is used against a Class in the schedule – these are provided by the Society.
- In a class of 3 blooms, all 3 blooms need to face the same way.
- To protect the tables, exhibits of vegetables, fruit and pot plants should be displayed on exhibitors' own plates/dishes.

### Home Produce

- All jams, marmalades and jellies should be named, dated and presented in plain jars. The label should include the type of fruit. Twist top jars should be used. Fill the jars almost to the brim. Jam should be set, spreadable and the fruit well cooked with no hard pieces. Marmalade should be set and spreadable with evenly sliced tender peel.
- Chutneys should be more than 3 months old. The consistency should be firm with a smooth texture – no large pieces of onion, fruit skins, cores or stones.
- Use a plain cutter for savoury scones and a fluted cutter for sweet.
- Savoury pies are decorated with pastry leaves, fruit pies are not.
- Pastry should be homemade unless otherwise indicated.

### Flower Arranging

- The dimensions given indicate the maximum amount of table space which your exhibit may occupy.
- Accessories and/or artificial plant material may only be used as part of an exhibit where their use is specified in the class description
